Mirror Glass

Bulletproof Glass

Toughened Glass

Toughened glass is a type of safety glass that is heat-treated to be much stronger than standard glass.

It is designed to withstand impact and pressure, making it ideal for use in homes and businesses where durability and safety are priorities.

If broken, it shatters into small, blunt pieces, reducing the risk of injury.

SAFETY

Safety Glass

Safety glass is engineered to be more resistant to breakage and minimize injury if shattered.

It includes laminated glass, which has a protective layer that keeps shards together, for increased strength and breaks into small, less dangerous pieces.

Performance Glass

Performance glass combines durability with advanced features like improved insulation and UV protection.

It enhances both the functionality and appearance of homes and businesses, ensuring a comfortable and stylish environment while offering superior clarity and strength.

A close-up photograph of the corner of a window or door frame, showing the dark metal or plastic frame and the clear glass panes. The background is blurred, showing some blue and white light spots.

ACOUSTIC

Acoustic Glass

Acoustic glass helps reduce noise transmission, making your home or business quieter and more comfortable.

Its specialized layers and interlayers effectively dampen sound, enhancing privacy and creating a more peaceful environment.

MIRROR

Mirror Glass

Mirror glass is a type of glass that has a reflective coating applied to one side.

This coating creates a mirrored surface that reflects light and images.

Mirror glass can enhance the aesthetic appeal of a space while also serving practical functions like increasing light and making rooms feel more spacious.

BULLETPROOF

Bulletproof Glass

Bulletproof glass is a highly durable material designed to withstand high-impact forces.

Made by layering multiple sheets of glass and plastic, it offers protection against bullets and other projectiles

It enhances security by providing a robust barrier while maintaining visibility and natural light.

OUR SERVICES

- Aluminium & Glass
- Specified Glass
- Privacy Films
- Garage Doors
- Aluminium Composite Panels
- Roller Shutters
