

Plantation
Shutters

Privacy, Light Control & Ventilation

With Plantation Shutters, you can always regulate how much light, airflow, or seclusion you need.

Plantation Shutters enable light and circulation through louvres that may be slanted up or down, while also offering privacy from the outside world.

Elegance & Value

Plantation Shutters are both beautiful and functional, adding elegance and value to any house or organization.

They also improve the overall ambiance of any room or space.

Plantation shutters can be used with complete confidence in any setting, bringing together any style of modern or classic interior design.

Versatile

Plantation shutters are perfect for any room, including kitchens, bathrooms, living rooms, bedrooms, and patios. They suit windows and spaces of all shapes and sizes, even arches and slanted openings, and are popular as room dividers. The shutters can be fully opened or closed, with adjustable louvres for personal comfort.

Security

Plantation shutters are the most stylish and aesthetically pleasing option to secure your property.

There's no need for unattractive standard burglar bars or security doors!

These shutters, which have a solid metal 2-way locking system, are designed and manufactured to be the toughest and most secure adjustable louvre security shutters.

Insulation

Plantation Shutters offer protection from the elements, including the sun's heat and glare, as well as insulation from the cold in the winter by adding an extra layer of warmth and protection.

The louvres can be adjusted for airflow as needed and the shutters don't rattle in the breeze since they're rigid.

Super Quality

We only use high-grade aluminum, which provides better lifespan, insulation, warmth, softness, and excellent quality.

All treatments are UV and fade resistant, and our shutters are ideal for coastal climates.

Colours

Available in six standard colours
(white, light grey, dark grey, bronze, charcoal and
matt jett black)
as well as a variety of other colours.
